## What's New in Version 5.0

---

### Family Directory

#### Religious Education Tab in Member Details Widened to Accommodate Long Class Names

In **Member Details**, we widened the grid on the **Religious Education** tab and extended the width of the **Class** column so that it now accommodates longer class names. Previously, class names consisting of more than eight characters were truncated, which made it harder for users to identify them.

### Issues Resolved in Version 5.0

---

#### IQ

#### Fixed: Queries Hang When Pulling Data from Certain Religious Education Student Date Fields

Previously, queries hung when attempting to pull data from the **Religious Education > Student Date Added** and **Student Date Removed** fields.

In this release, we renamed the two Religious Education Student Date fields as follows to match their field labels in the program's user interface, specifically:

- **Student Date Added** was changed to **Student Date Enrolled**.
- **Student Date Removed** was changed to **Student Date Unenrolled**.

### Contacting ParishSOFT
