Issues Resolved in Version 4.9.25

Development Manager and Offering

Imports

Fixed: Non-responsive Export Button Prevents Users from Exporting Validation Error Records

Customers reported that they cannot export files containing validation error records for failed imports because the **Export** button is not responsive.

Batches

Fixed: 'Deposited' Checkbox in Batch Details Not Working Correctly

When enabled (selected), the **Deposited** checkbox in Batch Details incorrectly allows contributions in closed batches to be deposited into ParishSOFT Accounting.

Contacting ParishSOFT
